Birthing your Placenta – The Third Stage
Nadine Pilley Edwards and Sara Wickham
Published by AIMS 2011
www.aims.org.uk

A	
Active management	3, 31-34
length of time	32-33, 83
when to recommend	25, 88-89
Adaptive care	70
B	
Bleeding after birth see Postpartum haemorrhage	
Blood loss, problems with measuring	55, 80
Breastfeeding	
impact of Ergometrine	42
role in physiological birth	2, 25
Bristol Third Stage Trial, criticisms	59
C	
Carbetocin	39-40
Choice	
informed choice	88-90
women's	84-85
Cochrane Reviews	10, 64-66
Controlled cord traction	3, 32
complications	52
Cord	
around neck at birth	22
controlled cord traction	3, 32
milking the cord	22
Cord clamping	
delayed	18-20, 50-51
early	9, 44, 46
history	9
Culture change	31
Cytotec see Misoprostol	
D	
Decision making	87
Delayed cord clamping, benefits	18-20, 50-51
Dublin and Brighton Trials	62

Duratocin see Carbetocin

E

Early cord clamping	9, 44
blood volume transference, side effects	46
Ecbolic see Uterotonic drugs	
Ergometrine	
administration	35
history	7-8
impact on breastfeeding	42
Ergonovine see Ergometrine	
Ethics, in randomised controlled trials	71-72
Expectant management see Physiological birth	
Experiences, women's	85

F

Fear	4
France	33

G

Guidelines	
NICE	10, 31, 88
RCM	17

H

Haemoglobin levels	61
Hinchingbrooke Trial	63 , 84
Hormones	
adrenaline	15
oxytocin	1-2, 24, 27
Hyperbilirubinaemia	21-22

I

Infant	
blood volume at birth	18-19
born with cord around neck	22
iron deficiency	47
premature	48
resuscitation	22
transition to extrauterine life	17, 48
Informed choice	88-90

L

Labour	
length of time	83
maternal position	24

Language	17, 55
Lotus birth	81-83
M	
Medicalisation of childbirth terminology	3, 7, 9 17, 55
Methergine see Ergometrine	
Midwives, level of expertise	27, 59, 84, 87
impact on research	75
Misoprostol	
administration	37-39
side effects	39, 43
N	
Natural placental birth see Physiological birth	
NICE guidelines	10, 31, 88
Nuchal cord	22
O	
Oxytocin	1-2, 24, 27
Oxytocin, synthetic see Syntocinon	
P	
Pabal see Carbetocin	
Physiological birth	15-17
benefits	23-24
hospital guidelines	28
impact of midwifery expertise	27, 59, 75, 84, 87
importance of maternal body temperature	25
time factors	2, 23, 28-29
Pitocin see Syntocinon	
Place of birth, impact of setting	58, 74
Placenta	
history of placental birth	7
physical development and role in pregnancy	11-14
rituals	14
women's knowledge	13, 89-90
Polycythaemia	21-22
Postpartum haemorrhage	2
drug therapy	35
problems with measuring blood loss	55-56 , 68, 80
women at low risk	71, 77
Premature infants	48
R	
Randomised controlled trials, ethics	71-72

Research	
bias	68
Bristol Third Stage Trial	58-61
Cochrane Reviews	10, 64-66
Dublin and Brighton Trials	62
ethics	71-72
haemoglobin levels	61
Hinchingsbrooke Trial	63
informed consent	72
limitations	55, 67-69
Resuscitation, infant	22
S	
Secondary bleeding	52, 70
Side effects of uterotonic drugs	40-41
Stem cells	47
Syntocinon	1
administration	33, 35
history	8
Syntometrine, administration	35
T	
Terminology	17, 55
Third stage of labour	1-4
NICE guidelines	10, 31, 88
Time	
limits	28, 32-33, 83
to birth of placenta	2, 23, 28-29
U	
Umbilical cord see Cord	
United States of America	33
Uterotonic drugs	
administration and dosage	34-40
history	7-8
NICE guidelines	36
routine use	35
side effects	40-44
Uterus	
during pregnancy and postpartum	12
inverted	32, 53
W	
Waterbirth	78-79
Woman-centred care	34, 73, 87
